ABOUT US

Dreams of Spanking is a subversive, ethics-driven spanking porn site producing high-quality weekly content for the BDSM community. The pleasure, comfort and consent of our performers is centre stage in our work, and we're dedicated to challenging society's expectations of what pornography can be.

Over the past decade we've:

- Fought sex-negative censorship regulations (and won!)
- Helped to demystify pregnant bodies, disabled bodies, trans bodies and fat bodies
- Educated people about BDSM safety and explored a variety of deeply edgy and taboo subjects in a radically consensual way.

400+ FEMINIST SPANKING PORN RELEASES

With a ten-year history, we've built up a huge archive of work that showcases these ideals. For a quick introduction to what we do, have a look at these films:
